

- **Land allocation at Musakashi North in Tier 1 done.** This will help Farmers to do their land preparation before the onset of rains. Major crops to be planted are maize and groundnuts. This is as agreed with the farmers.

- **Visitation from the Ministries of Mines, Commerce and Energy.** The three Ministries visited to appreciate the status of the project. The CLT Chairman gave a background to the Musakashi project as the team took them on a tour to see and appreciate the activities on the ground.

- **Farmers** are currently being helped to establish nurseries for tomatoes and chilli. In addition, the Zambia National Service are almost done with installation of two more center pivots to make it three (3) in tier three.
